HENRY C. L. ANDERSON,

Director.

## MEMORANDA.

*Trade.*—The imports during March were valued at £2,699,608, which shows a decrease of £131,432, as compared with the corresponding month of last year. For the three months there was a decrease of £456,746, or over 5 per cent., as compared with last year. The direct oversea imports during March amounted to £1,626,120, as compared with £1,358,007 in 1907; the total for the three months was £4,986,029, an increase of £563,459 over the corresponding figures for 1907. There were increases in apparel and soft goods, sugar, machinery, and spirits; and decreases in tobacco, metal manufactures, iron and steel, and kerosene. Gold also shows a heavy falling-off.

The oversea exports for March amounted to £2,250,788, and show a decrease of £1,132,639 compared with the corresponding month of last year. Wool decreased by £837,000, minerals by £93,000, wheat by £82,000, meats by £24,000, and butter by £21,000. For the three months there was a decrease in the oversea exports of £3,254,916, or over 32 per cent., as compared with last year. Most of the principal articles show large decreases: Wool, £2,155,000; wheat, £544,000; minerals, £426,000; meats, £139,000; skins, £121,000; and tallow, £57,000; coal, timber, and wine, alone show increases. Separating merchandise from gold, the exports of the former during the three months decreased by £3,259,097, but the latter increased by £4,181.

*Public Finances.*—The Public Accounts for March show that the net revenue for the month was £1,248,690, or £241,792 more than in March of last year. During the nine months ended 31st March the revenue was £10,660,403, being £945,003, or 9·7 per cent. more than the corresponding period of the last financial year. The principal increases in receipts during the nine months were from Commonwealth returns, £785,700; Land Revenue, £21,100; Railways, £371,200; and Sydney Harbour Trust, £25,000. The returns from taxation decreased by £213,838. The expenditure during March was £1,300,987, a decrease of £85,286 as compared with March of last year. During the nine months the expenditure was £9,235,992, being £15,916, or 2 per cent. less than in 1906-7. Expenditure on Government Departments decreased by £141,542, and on Business Undertakings increased by £188,887. Interest payments decreased by £63,261. On the 31st March, 1908, the balance to credit of the Consolidated Revenue Account was £1,658,497.

*Savings Banks.*—The latest returns show that at the end of 1907 there were 421,928 depositors, having £17,530,157 on deposit. This shows the large and unprecedented increase of £2,209,625 in deposits during the year. The average amount on deposit was over £41 per depositor, and £11 per head of population. About one person in four is a depositor.

*Agricultural Production.*—The preliminary results of the final compilation of the crop returns show that the yield of wheat during the 1907–8 season was 9,074,000 bushels from 1,390,171 acres, equal to 6·5 bushels per acre. The yield showed a heavy fall as compared with the previous season, and the area also shows a decrease of 476,000 acres. The smallness of the crop is due principally to adverse weather conditions, aggravated by grasshoppers. To some extent, also, dairying has supplanted wheat-growing. The returns for this season from all kinds of crops were, with few exceptions, below the average, and altogether the area under cultivation decreased by 254,000 acres.

*Dairying Production.*—The dairying industry, notwithstanding an unsatisfactory season, shows a large production. The quantity of butter made was 59,419,000 lb., the largest on record, and nearly half a million pounds more than during last year. The result is principally due to excellent returns in the North Coast districts.

*Stock Returns.*—The preliminary stock returns show the number of sheep in the State at the end of 1907 as 44,738,000, an increase of over 600,000, over the previous year's figures in spite of an unsatisfactory lambing in the spring. The number of horses was 578,671, and of cattle 2,726,965, both showing increases; but the number of pigs, 216,116, was less than in the previous year.

*Mineral Production.*—The value of the minerals—silver, copper, tin, and coal—exported from New South Wales during the first quarter of 1908 was £1,689,629, a decrease of £135,826 as compared with the corresponding quarter of 1907. All the minerals, with the exception of tin, show increases in output, but the prices have declined. The gold yield during March was 26,187 oz. crude, equal to 23,029 oz. fine, valued at £97,822. The value of gold produced during the three months was £265,747, and showed a decrease of £42,135, as compared with the corresponding period of 1907.

*Prices.*—The index numbers show that the fall in prices which began last August still continues. The general number for March was 3 per cent. lower than for February, and 15 per cent. lower than for March of last year. The index number for pastoral produce was 1,153, for metals 1,083, and for all articles 1,179. During the month butter, wool, and sheep skins showed a considerable decline. Wheat, frozen meat, and tin, however, advanced in price.

*Meteorology.*—During March the rainfall was general over the whole State, but on the whole below the average. Splendid falls were, however, recorded in the northern districts.

*Land Selections.*—During March 200 new settlers applied for 115,949 acres; and 72,736 acres, representing 69 blocks, were set apart for residential settlement. Since the beginning of the year the number of new settlers has been 529, and the area applied for 292,075 acres. The original area set apart for residential settlement since the 1st January has been 204,250 acres, representing 268 blocks.

## Statement of Liabilities and Assets as at 30th June, 1907.

LIABILITIES.	ASSETS.
Public Debt, £85,607,832, which has been expended as follows:—	<b>Net Earnings from Business Undertakings</b> , year ended
<b>Reproductive Works</b> —	30th June, 1907, capitalised at 3½ per cent.—
Railways and Tramways ...	£
Water Supply and Sewerage ...	67,752,000
Sydney Harbour Trust ...	11,357,000
Darling Harbour Resumptions ...	6,151,000
Total ...	844,000
Total ...	Total ...
67,253,224	86,104,000
<b>Indirectly Productive</b> —	<b>Public Lands</b> —
Conservation of Water, &c....	£
Roads and Bridges ...	Net Revenue from Leases capitalised at 3½ per cent...
Harbours and Rivers ...	Amount outstanding on C.P.'s
Total ...	Total ...
7,293,014	22,586,000
<b>Unproductive Works</b> —	108,690,000
Public Buildings and Offices	£
Handed over to Commonwealth ...	<b>Cash in Hand</b> ...
Other Works... ..	Sinking Fund ...
Total ...	Total ...
11,061,594	£113,955,000
Grand Total ...	Total ...
£85,607,832	£113,955,000

NOTE.—The total debt was expended principally on works of a permanent character, 79 per cent. being on reproductive works, 8 per cent. on indirectly productive works for the facilitation of traffic, and 13 per cent. on unproductive works.

The assets have been calculated on the basis of actual returns, by taking the net return from the business undertakings of the State for the year 1906–7, and capitalising at 3½ per cent. In addition, the value of the land still remaining to the State has been estimated on the basis of the annual revenue received, and the amount still outstanding on land alienated. Also the actual amount of the Sinking Fund and Cash in hand on 30th June, 1907, has been included. There is little doubt that the value quoted above of the public lands still unalienated is greatly under-estimated, but no valuation has been made by the Lands Department.

It will be seen from the statement that the excess of assets over liabilities is over 28 millions sterling, which may be regarded as extremely satisfactory. It should also be pointed out that in estimating the assets, no account has been taken of works not directly producing revenue, such as harbour works, roads and bridges, and others, although, of course, indirectly these works have been of great service in developing the country.

# Statistical Bulletin—March, 1908.

## No. 1.—Population.

Year.	Estimated Population at end of Year.			Annual Increase.		Mean Population.
	Males.	Females.	Total.	Numerical.	Per cent.

						1,689,629		1,825,455

\* The exports of tin and copper include metal refined from ores imported from other States and treated here. The quantity and value of the copper and tin ore imported during the first quarter of the years 1908 and 1907 are as follows :—

First quarter, 1908.				First quarter, 1907.			
	Quantity.	Value.	tons.		Quantity.	Value.	tons.
Copper	291	6,134	291	Copper	1,518	23,485	1,518
Tin	273	20,852	273	Tin	269	29,310	269

The silver and coal exports represent the product of the mines of this State.
